Product Designer with experience building SaaS applications.

WORK EXPERIENCE

Compute Software

Senior Product Designer | September 2017 – April 2019 | Mountain View, CA

- End-to-end design of an intelligent cloud scaling web-app with supporting documentation site.
- Assisted developer in implementing designs from mockups in CSS and Clojure, including debugging and testing of components and user flows.
- Performed user tests and collected user feedback on product experience and features.

Genability

Product Designer | June 2014 – June 2017 | San Francisco, CA

- Redesigned and developed a suite of products for solar, EV, battery storage, and utility data consumption. Included a B2B energy rate explorer, quote tools with generated PDF reporting, developer documentation, and supporting white label demonstration apps.
- Supported products for 8/10 top solar developers in the US.

Greenstart

Visual Designer | January 2013 – January 2014 | San Francisco, CA

- Designed websites and mobile applications for start-ups inside a VC/design firm.
- Assisted with user research and business strategy presentations.
